

2019 USAF Design Awards Program

U.S. AIR FORCE

MERIT AWARD FACILITY DESIGN

Norway Italy Reprogramming Laboratory

Eglin AFB, Florida

Design Organization: Bullock Tice Associates

Design Agent: Mobile District, US Army
Corps of Engineers

Base Engineering Organization: 96th Civil Engineer
Group

Juror Comments:

- *Exterior materials, forms and attentive use of glass portray the high-tech functionality of the facility, while complimenting the surrounding campus*
- *The tasteful use of sleek interior colored wall panels and bold graphics echo the multi-national nature of the supported mission*
- *Skillfully provided secure environments for three separate countries, while balancing the need for windowless areas, effective daylighting and efficient circulation*
